

## **MEDLIFE Local Leadership Adventures Booking Conditions**

### ***Payment***

MEDLIFE requires a non-refundable deposit of \$250 USD per person per trip for a booking to be confirmed. Full payment is due 60 days prior to departure:

- Sierra Nevada, July 11: Full payment due May 11
- Grand Canyon and the Navajo, July 18: Full payment due May 18

In the event we do not meet minimum numbers, a full refund will be provided.

### ***Cancellation by participant***

If you cancel your trip between 35-60 before departure, MEDLIFE will retain 50% of the trip cost. If you cancel your trip between 0-34 days prior to departure, MEDLIFE will retain 100% of the trip cost.

### ***Vaccination Requirements***

A COVID-19 Vaccination certificate must be submitted to MEDLIFE prior to joining the tour.

### ***Government Guidelines and Restrictions***

MEDLIFE is offering these programs with the expectation that local government and authorities will allow travel to the destinations in this itinerary, even if that is not the case today. An itinerary may be altered based on factors outside of MEDLIFE's control.

If a tour is unable to operate due to local regulations, MEDLIFE and our local partners may be forced to cancel a departure due to health and safety factors beyond our control. Should this occur, participants will be offered the option of postponing their trip, applying the trip value to another MEDLIFE program (Local Leadership Adventure, Service Learning Trip, or Virtual Service Learning Trip) or receive a full refund.

In the event you used a voucher (travel credit) to register for a Local Leadership program, contact your Chapter Manager to discuss your options.

### ***On Tour Requirements***

Participants must follow COVID-19 Safety guidelines during the tour. This includes (but is not limited to) using a face mask, washing hands regularly, and following social distancing guidelines. Participants will also be required to answer a questionnaire each day to identify any symptoms of COVID-19.

Should a participant develop COVID-19 symptoms, they will immediately be removed from the tour and will be required to isolate away from the group.
